

Fixed Cost Servicing For Up To 5 Years

Our Bridle Maintenance package helps you better manage the cost of looking after your vehicle by fixing all servicing, maintenance and repair charges, including tyre replacements, and then spreading them evenly throughout the entire year.

With just one easy to manage monthly payment, you can guarantee quality workmanship, manufacturer approved parts and prices that are fixed for up to 5 years.

How does it work?

When you take out a Bridle Maintenance contract, the price of all routine servicing and maintenance is fixed for the duration of the agreement. Then, when your vehicle is due for its next service, your dealer will conduct the work as normal. The only difference is that you won't get a bill at the end!

No more hard to swallow bills

That's right, no more nasty surprises, just great customer service, strict quality control and professionally managed repairs. What's more your Bridle Maintenance contract even carries on after your manufacturer warranty has expired.

What's covered?

With Bridle Maintenance you'll never need to worry about getting a bill for any mechanical or electrical repairs. You won't even have to pay for tyres with our no quibble replacement policy. All service and repair work is conducted by main dealers and includes:

- All damaged or worn tyres
- Mechanical repairs
- Electrical faults
- Replacement battery
- All bulbs, exhausts and cam belts
- Windscreen wipers

What does it cost?

Each Bridle Maintenance contract is built around your individual needs. With this in mind, our expert team are ready to prepare an inflation proof personalised quotation based on your chosen vehicle, length of contract and typical annual mileage.

What happens next?

We will help you complete the necessary paper work and answer any questions you may have. Once the agreement has been finalised, just sit back and relax, safe in the knowledge that you can benefit from worry free motoring and fixed cost servicing for years to come.
